*Will circulate cement returns.

It is proposed to drill a 15-inch hole to approximately 400 feet, and set 10-3/4-inch surface casing, cemented to surface. An 8-3/4-inch hole will then be drilled to an approximate total depth of 9,100 feet to test the Mississippian formation. If commercial oil production is indicated, a string of 5-1/2-inch casing will be run, set and cemented as outlined above. A salt-base mud weighing approximately 10.3 lbs./gal. will be used.

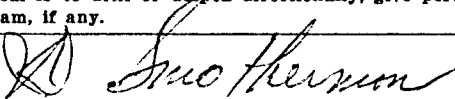

For State Use Only:

Request under Rule 3, a topographic exception to unorthodox location due to topography. Consolidated owns or controls all acreage within 660' drill site.

IN ABOVE SPACE DESCRIBE PROPOSED PROGRAM: If proposal is to deepen or plug back, give data on present productive zone and proposed new productive zone. If proposal is to drill or deepen directionally, give pertinent data on subsurface locations and measured and true vertical depths. Give blowout preventer program, if any.

Gentlemen:

Our records indicate that you have not filed a "Monthly Report of Operations" for the months of April and May, 1972, on the subject well.

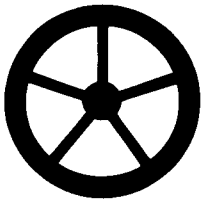

Rule C-22(1), General Rules and Regulations and Rules of Practice and Procedure, requires that said reports be filed on or before the sixteenth (16) day of the succeeding month. This report may be filed on Form OGC-1b, (U.S. Geological Survey 9-331), "Sundry Notices and Reports on Wells", or on company forms containing substantially the same information. Enclosed are forms for your convenience.

Your cooperation with regard to this request will be greatly appreciated.

Dear Mr. Smothermon:

This is to acknowledge receipt of your Sundry Notice dated January 17, 1973, advising that Consolidated Oil and Gas does not wish to drill the referenced well at this time. Therefore, this office hereby revokes its approval of the Application for Permit to Drill the referenced well which was granted on June 19, 1972.

This action does not create any prejudice toward future drilling at the site but it will be necessary for you to file a new Application for Permit to Drill along with the supporting data if you decide to drill at some time in the future.

Sincerely,
